MULTIMEDIA COLOR MONITOR

MEGAVIEW 29. AN AUTO-SCANNING COLOR MONITOR FOR SMALL-TO-MEDIUM SCALE PRESENTATIONS.

The MegaView 29 monitor maintains extremely high picture quality whether the input source is composite video, S-VHS (separate Y/C) or RGB from a PC or Macintosh computer.

With its 29" (27.0" diagonal viewable image) CRT, the MegaView 29 is extremely flexible to accommodate your changing equipment and operating requirements. Its superb performance is complemented by a full range of convenience features that make it ideal for every presentation application. These include stereo audio with a 5W/channel audio amplifier and terminals for a pair of external speakers. Features such as these, together with an enhanced video performance, result in dynamic multimedia presentations.

- Compatible with IBM® VGA, Apple® Macintosh® LC, Macintosh II and Quadra (640 x 480) graphics standards
- High contrast, tinted CRT with Invar Mask
- Dynamic Beam Forming for improved image definition at monitor screen edges
- Front control panel
- MPU-based 15-39 kHz auto-scan range
- Stereo audio with a 5W/channel audio amp and terminals for a pair of external detachable speakers

MEGAVIEW™

The Biggest Name In Large Screen Monitors

 MITSUBISHI
ELECTRONICS

Introducing the MegaView line of large screen monitors from Mitsubishi Electronics. Mitsubishi was first to offer large screen monitors. And today still has a broader line than anyone else, including 29" to 42" (27.0" to 40.0" diagonal viewable image) MegaView models. Each capable of making your next presentation truly memorable. Mitsubishi auto-scanning, large screen monitors were developed for multi-person viewing of video, data and graphics, along with dynamic stereo audio. Create spectacular multimedia presentations

combining virtually all video and computer sources available today. With Mitsubishi MegaView monitors, you'll get clearer, sharper images—even in high ambient light.

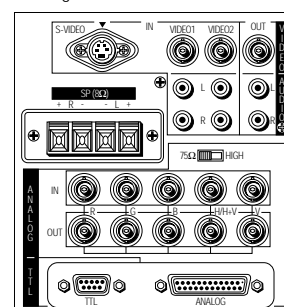

The MegaView 29 color display monitor with its 29" (27.0" diagonal viewable image) CRT is ideally suited for small-to-medium scale presentations. It features superb performance and is complemented by a full range of convenience features that make it ideal for many different applications. When your images require the utmost in clarity, color reproduction, and reliability, the MegaView 29 is an excellent choice.
